Terry Cutler is the CEO of Cyology Labs. He is an international award-winning cybersecurity expert and government-cleared Ethical Hacker known for his catchy online videos, numerous television appearances, live public speaking events, extensive coaching products, and top-level consulting services. He's also the author of the #1 Amazon Best Selling book "Insider Secrets to Internet Safety: Advice from a Professional Hacker".
Terry was named IFSEC Global's Top 20 Most Influential People in Cybersecurity for 2018, 2019 and again in 2020 and was also awarded 2017 Cybersecurity Educator of the year award. He was recently named to the CISO Platform Global TOP 100 List.

**Protecting yourself online, Advice from a Professional Hacker**
In a world of digital technology, it is easy to forget one sobering fact: our identity can be stolen from under our nose, with one click of the mouse, propelling us into nightmares in a matter of minutes, anytime, anywhere and on any one of our darling gadgets. Hackers, malware, botnets and all forms of digital threats are ever more sophisticated, waiting in the shadows for that one opportunity to steal your sensitive information. Terry reminds us of just how vulnerable our data really is, through chilling real-life stories, such as that of a simple USB key left purposefully behind, in any targeted enterprise's lavatory, where an unsuspecting (albeit good-willed) employee can just pick it up, plug it in and thus lead the hackers right into the company's core data.

Terry's training will teach you how to:
- easily come up with an undecipherable password
- how to secure your information on social media
- how to detect threats
- how to identify frauds
- how to find out what personal information about yourself is floating on the web

But he reminds us that no matter how stringent our defences are, there are no silver bullets against cyber crooks, and that a computer's security is only as strong as its weakest link. That weak link is usually human error.

Come and crack the code in this presentation!

*The Ottawa Branch of the Association of Administrative Professionals (AAP) invites you to join us for some great networking, education, personal and professional development. AAP strives to provide administrative professionals the opportunity to learn, grow and thrive by encouraging all members to add to their individual competencies, advance their leadership skills, realize their value in the workplace and the community, and have confidence to excel in their careers.*
